Commissioner for Patents

In response to the Order Returning Undocketed Appeal, mailed January 31, 2005, the following actions have been taken. Firstly, missing page 7 of the amendment of November 1, 2001 has been scanned into the electronic record. Secondly, while it is not seen that a supplemental Examiner's Answer or new Appendix to the Appeal Brief is necessary, because claims 1 and 9 of the amendment of March 2, 2004 (entered by the examiner on June 24, 2004, as noted within paragraph 4 of the Examiner's Answer) correspond to claims 1 and 9 within the Appendix to the Appeal Brief of June 4, 2004 with respect to "hydroxyl", a supplemental amendment, filed June 13, 2005, has been made of record and entered by the examiner. This supplemental amendment provides the proper notation, in accordance with the requirements of 37 CFR 1.121, that clearly and unambiguously changes "hydroxy" to "hydroxyl". This supplemental amendment exactly corresponds to the entered amendment of March 2, 2004, with the sole exception being that the "l" of "hydroxyl" has been underlined. During a telephonic interview with applicants' representative on June 9, 2005, it was confirmed that the "hydroxyl" language of claims 1 and 9 that appears within the amendment of March 2, 2004 and the Appendix to the Appeal Brief is correct. Please see attached Interview Summary.
